

MAP OF THE CORONADO EXPEDITION

Name: _____ Class _____ Date _____

1. Find Compestela, Mexico, where the expedition began. Put a red circle around that location.

2. Use a highlighter to trace the dotted line as it goes north through southern Arizona, into New Mexico, and east into Texas, Oklahoma, and Kansas.

3. As the expedition crosses into New Mexico, they stopped at Hawikuh, now Zuni. There was a battle there. Make a yellow star to indicate a fight.

4. A group of Coronado's men went west searching for their supplies and exploring. Put an orange circle around the name of the geographic feature that stopped their westward journey.

5. Color the Rio Grande blue. Circle the Tiguex Province.

6. Circle the farthest point east that the Coronado Expedition traveled.

7. After they returned to Mexico, Coronado was called to Mexico City and put on trial. Put a black box around Mexico City.
