

Vinegar

To 8 gallons of clear rain water add 3 quarts of molasses. Put into a good cask, shake well a few times, and add 2 or 3 spoonfuls of good yeast.

If in summer place the cask in the sun. If in winter, near the chimney where it may be warm.

In 10 or 15 days add to the liquid a sheet of brown paper, torn in strips and dipped in molasses, and a good vinegar will be produced.
